

We have again partnered with Maryland Pro Wash to bring Vineyard Oak homeowners a great service and a fair low price! In our annual walk through of the community, many people had mold issues on their siding which can be easily cleaned off with this service.

The cost will be \$199 for a siding power wash, no matter the size of your home. Usually homes of our sizes here cost a lot more. (Note: this service does **NOT** include your deck, patio brick, or vinyl fencing.) This is siding only. You may contract for those extra services on your own by calling **(443) 752-1754**. We can pay by calling and giving credit card info. over the phone to the number above, or you can pay by cash or check the day of the service. Checks are made to Maryland Pro Wash.

*\*Your outdoor cushions, decorations, or anything that could be affected by water exposure should be put away or moved prior to the service. Make sure your **windows are closed** on day of service! They will not move your things nor are they responsible for anything damaged by water if left out the day of the service! If you have any flowers/gardens vulnerable to cleaning chemicals, cover them or move them. Lastly, your water **MUST BE TURNED ON** to your outdoor spigots.*

An email will be sent to those participating with the date the service will occur, hopefully last weeks of April. You do NOT have to be home the day of service; you just have to leave your payment on your door. Last year a few people thought they were skipped, but it was because they did not leave their payment or didn't answer the door when doorbell was rung.

To be included in this deal, please email Laura Cushman at [dwyllaura@yahoo.com](mailto:dwyllaura@yahoo.com) by 9 am on Friday, April 14<sup>th</sup> with your name, address, email address, and a phone number.

**THANKS!**
